Concepts
API Development, Logging & Monitoring, Testing, Cross browser compatibility, DBMS

Backend
Node.JS, Express.JS, REST APIs, Socket.io, JWT

LANGUAGE

- Hindi, English

CERTIFICATES

- TCS iON NQT- Cognitive
- HTML and CSS From Beginning to Advanced
- Certificate of Training in Web Development
- Diploma In Computer Application (D.C.A)
- Infosys Trends in Cybersecurity

PROJECTS

Room-Dekho – Room Rental Website
- Built backend using Node.js and MongoDB to handle user.
- Developed a room rental web application using React.js, Node.js, Express.js, and MongoDB.
- Applied CRUD operations for property listings and user data.
- Designed responsive UI components and integrated backend APIs.
- Achieved 85%+ backend test coverage by authoring JUnit tests for all API endpoints.
- Optimized Cross-browser compatibility across Chrome, Firefox, and Edge.

Text-util Website
- Developed a responsive frontend web application using React.js, HTML, CSS, Bootstrap, React Dom and React Router.
- Implemented Tailwind CSS, Bootstrap for better UI.
- Designed responsive UI components.
- Validated frontend code with over 90% unit-test coverage using Jest.
- Text-util is a utility that allows you to manipulate your text in various ways.
- Delivered Cross-browser compatibility across Chrome, Firefox, and Edge.

Invoice Generator
- Developed a responsive invoice generation application using React.js and Vite with real-time invoice preview and automatic invoice numbering.
- Implemented GST calculations (5%, 12%, 18%, 28%) with support for CGST, SGST, and IGST based on transaction type.
- Built dynamic invoice management features, including adding/removing items, discounts, shipping charges, payment tracking, and balance calculations.
- Integrated PDF generation, invoice downloading, and printing functionality using jsPDF and html2canvas.
- Implemented browser localStorage to retain invoice data and improve user experience.
